

STATE OF WASHINGTON

ENERGY FACILITY SITE EVALUATION COUNCIL

*PO Box 43172 • Olympia, Washington 98504-3172*

**In the matter of Sumas Energy 2, Inc.  
Application No. 99-1: Sumas Energy 2 Generation Facility**

**NOTICE OF RECONVENED PUBLIC WITNESS HEARING**

**September 27, 2000**

The Energy Facility Site Evaluation Council invites members of the public and interested parties to attend and provide testimony to the Energy Facility Site Evaluation Council regarding the proposed Sumas Energy 2 Generation Facility at a reconvened public witness hearing to be held on **Wednesday September 27, 2000, beginning at 7:00 p.m., at the Nooksack Valley High School, 3326 East Badger Rd, Everson, WA, 98247.**

The Sumas Energy 2 Generation Facility would consist of a 660 megawatt natural gas-fired combustion turbine electrical generation facility sited in Sumas, Washington, a new 0.5 mile, 230 kilovolt, electrical transmission line to be constructed from the proposed facility to the Canadian border and a 5 mile, 16 inch, natural gas pipeline to be constructed adjacent to an existing natural gas pipeline that runs east and northeast from the project site to the Canadian border.

The Council is reviewing Application No. 99-1 under the procedures set forth in Chapter 80.50 RCW and Title 463 WAC. The Council is conducting an adjudicative proceeding under the authority granted by RCW 80.50.090(4) and Chapter 34.05 RCW, the Administrative Procedure Act. EFSEC procedural rules for adjudicative proceedings are found in Chapter 463-30 WAC.

Priority will be given to the last 38 members of the public that had signed up to speak at the meeting held July 27, 2000, and who did not have time to present their testimony to the Council. Because the Council anticipates significant public participation at this hearing, and the possible need to limit time for oral comments, the Council urges that members of the public wishing to make oral comments also consider submitting a written version to complete their testimony. This hearing is being held in addition to a Public Hearing regarding the Draft PSD Air Emissions Permit scheduled for September 28, 2000.

Additional information about this application is available on the EFSEC web site at <http://www.efsec.wa.gov>. For more information, or if you have special accommodation needs, contact Irina Makarow at 360/956-2047 (Voice) or 360/586-4224 (TDD).

WASHINGTON ENERGY FACILITY SITE EVALUATION COUNCIL

Dated in Olympia, Washington, this 25th day of August, 2000.
